“For science the great miracle to be explained is the physical universe. For esoteric philosophy the greater miracle is human consciousness.”

Jonathan Black,
The Secret History of the World

“The danger of delusion was made worse, by the love of delusion. What is best for me and what is worst for me, the thing I most ought to do and the thing I most ought not to do, look very much alike. In my heart of hearts I may know which is which - but then a spirit of perversity makes me want to choose wrongly. Great psychic perturbation always surrounds great beauty.”

Mark Booth,
The Secret History of the World

There is no passion to be found in playing small - in settling for a life that is less than the one you are capable of living.

Open letter to the seeker

Welcome to a new and fascinating adventure destined for the true seekers of consciousness.

As I was putting together this brochure, I was considering telling you about the uniqueness of the place we're going to, the special energy which cannot be described in words, the connection with the land which is considered to be the birth of humankind, the closeness of the wild lions and rhinos and elephants.... And that is all true. But I chose to tell you about something equally, if not more important.

Adriana James

"I'm on the path to being someone I'm equally terrified by and obsessed with. My True Self."
Troye Sivan, young South African-born Australian singer-songwriter, actor, and YouTuber.

Accelerating one's evolution is an amazing process which can be at times exhilarating. At the same time, there may be many moments where you may feel frustrated and confused, juggling up many different paths of information that are essentially spiritual "junk food" and serve only as escapism. That is the process of awakening out of the daily trance you're used to. In order to separate the truth from the noise and fully activate your illumined mind, the Conscious Awakened Mind is an absolutely necessary ingredient so you can filter out the nonsense and get to true understanding.

"The mind is the instrument by which consciousness creates."
Adriana James

The noise can be at times overwhelming and self-confirming and yet, when you have begun the process of awakening it may be like a single moment when you realize that there is more to life than the scientific materialist approach; you arrive at a point where you may even find yourself conflicted and unsure. **Nothing is wrong and yet there are many things that don't feel right.** There is just too much information out there and your experience of life has become unsettled. There were many useful things you learned already but... there is something else out there which you have not found, yet. And it's all about YOU. You begin to question some things and you end eventually questioning everything. You end up believing nothing and everything at the same time, and the more you know, the more you realize you know very little. Occasionally you may even reach a place where you begin to detach from old things, people, and situations. And that's the moment when the process of illumination truly takes place. Your old role has changed or maybe YOU have changed and no longer wish to play the old role in the play. Who are you indeed? Why are you here?

"You cannot transform the world by wishful thinking - you must do something about it."
Jonathan Black, *The Secret History of the World*

This is exactly what you will learn here. How to DISCOVER and then ACTIVELY participate in the creation of your own life, and the betterment of the world. This is the secret teachings of the old, the secret of the initiates which is being withheld from the true and worthy seeker.

*The structure of The Accelerated Personal Evolution Programme™ courses is based on ancient knowledge. The science of High Magic was pure science, but then the immediate question is, what kind of science? First of all, it was **THE SCIENCE OF THE MIND. Magic is then the science of the mind as an instrument through which consciousness creates.** It is the way of affecting real change in the fabric of reality so you can change it. In modern parlance this could be considered as a sort of mental engineering that can shape and affect the forms and functions of nature itself as well as the living things and materials in it. This is what you will learn here.*

All high magic is inner magic. Once understood and applied correctly, the initiate has no more need for other books of spells, magic implements, talismans and amulets, charms and divination, channeling, and the like. Therefore, magic conceived in the mind interacts with and influences the basic fabric of reality as well as the other entities that exist within numerous layers of creation. This ancient high magic science had various purposes.

- 1. The understating of the structure of the cosmos and reality as we experience it here on planet Earth and working with invisible cosmic forces directly to affect the fabric of reality. This means that the human being becomes a conscious and aware co-creator of reality.*
- 2. The ability to invoke forces responsible for functions within living things and the human body and transduce them through the physical body.*
- 3. The ability to consciously receive/transmit information allowing you to internally know what happened to a place, person, or thing, even at a distance including distance in time. In other words, the capability to mentally change the personal future time line.*

And the process is done internally because all high magic is inner magic.

You will discover many things that once believed to be impossible and fantastic, are actually not only possible but achievable, things that for the non-initiate can shake the very essence of one's existence. Your consciousness is unbelievably powerful if you know how to direct it correctly.

I would like to take you on a journey of discovery, using the secret teachings of the old, the teachings of the initiates which will give you the HOW you're now missing. Our journey will weave through precious information and processes as well as initiations which you can take and use for your accelerated development for the rest of your life.

I am looking forward to see you there. Now is the time!

● ● ● SAFARI TRIP AT AQUILA BIG SAFARI RESERVE

Nov 14

This full day Big 5 safari offers an amazing experience in the home and habitat of a great diversity of wildlife. When you start researching an African safari, the term "Big 5" often comes up. This is because the big 5 animals are widely considered a "must-see" on any authentic safari adventure.

The "Big 5" refers to South Africa's iconic big five animals: African Lion, Leopard, Rhino, Elephant and Buffalo. These are by no means the only animals living in the habitat: Giraffes, Zebras, Hartebeest, Hippopotamus, Ostrich, and Impalas are just some of the others sharing the amazing landscape.

The Big 5 are impressive animals. They are well-known for their size, strength, and dangerous nature. Because of their remarkable reputation and early threat to human settlers, their once thriving populations have severely dwindled as a result of hunting, poaching, and a loss of habitat. To date, sighting these rare creatures is indeed once in a lifetime experience on safari! The sight and life-encounter with them is so awesomely unique that no video can capture the experience itself. However, you can take stunning photos of this memorable authentic African game drive safari without travelling far in the wilderness of Africa.

Aquila Big 5 reserve offers traditional vehicle safaris which are led by experienced game rangers and field guides, ensuring guests have the best opportunity to see the reserve's natural wildlife.

● ● ● GENERAL INFO AND TERMS AND CONDITIONS

● BOOKING

We recommend that you call The Tad James Co. (TJC) office at AU +61 2 9221 9221 at the time of signing up. The team will provide any other information specific to your journey and answer any questions you might have. We strive to make certain that for this special place you will be well prepared and have realistic expectations before deciding to book this once in a lifetime journey.

A non-refundable deposit of \$12,000 for APEP 1, and \$6,000 for each APEP 2 and 3 is required at the time of booking to secure your space on this journey. A completed enrollment agreement must accompany your deposit and a copy (photo) of the inside page of your passport (with your picture on it) at least 60 days prior to the departure. Final payment is due 30 days prior to the departure.

When your deposit is received by TJC you will receive an acknowledgment of your enrollment, Travel insurance is highly recommended.

● PASSPORT AND VISA

You must be in possession of a passport valid for minimum six (6) months after the return from the journey. You are also responsible for determining if you need a visa and obtaining one if you do. At this link you can verify whether you need a visa for South Africa: www.sahc.org.au/visa_countries_waivers.html

● REFUNDS AND CANCELLATIONS

For this training, The Tad James Co. requires cancellations by phone followed by written cancellation. Once you enroll for the journey, the deposit is transferable for a future APEP but non-refundable. There is no refund for partially completed trip or unused services of any kind. Trip cancellation insurance is highly recommended.

● TRAVEL INSURANCE

TJC does not issue travel insurance. Discuss travel insurance options with your travel agent at the time of booking your flight to Cape Town, South Africa. If your health insurance does not cover you for medical expenses abroad, strongly consider getting supplemental insurance.

Find out in advance if your insurance plan will make payments directly to providers or reimburse you later for overseas health expenditures. TJC does require a copy of your travel insurance or a signed waiver of insurance.

● HOTELS

TJC has booked accommodation at The Franschoek Hotel and Spa, a 5-star hotel (for APEP 1 only) nested in the renowned Winelands area of South Africa's 'French Corner'. The hotel is situated a short 1.5 hours by car away from Cape Town with its famous Table Mountain, as well as 1 hour away from Aquila Safari & Wildlife Private Reserve which include sightings of the Big 5 (lion, elephant, buffalo, leopard, and rhino). This provides for thrilling experiences during your South African stay. Tad James Co. or its suppliers may find it necessary to make changes in accommodations due to circumstances beyond our control. Substitutions will be of equal or superior quality.

For additional information contact The Tad James Co. offices at: +61 2 9221 9221 or email: SouthAfricaAPEP@nlpcoaching.com

● ACTS OF GOD

TJC is not responsible for acts of God, fire, weather, acts of government or other authorities, war, civil disturbances, riots, terrorist acts, strikes, theft, pilferage, epidemics, quarantines, other dangers related to sea, land or air travel, nuclear warfare, and other similar incidents beyond our control.

● RESPONSIBILITY

TJC purchases hotel accommodation, restaurant and other services from independent suppliers not affiliated with TJC. Although TJC chooses the best suppliers available, we in no way have the right to control their operations and CANNOT, THEREFORE, BE HELD LIABLE FOR ANY PERSONAL INJURY, PROPERTY DAMAGE OR LOSS which may occur due to (1) wrongful, negligent, or arbitrary acts of omission on the part its suppliers, their employees, or others not under the direct control of the TJC, or (2) defects or failures of any aircraft, vessel, automotive vehicle, or other equipment under the control of independent suppliers.

There are no required inoculations or vaccinations currently for travel to South Africa. If in doubt please consult your physician.

● YOUR RESPONSIBILITY

If your flight to Cape Town or back home may require an extra night in Cape Town, you will need to book accommodation on your own. Those nights are not part of the journey.

● PACE OF TOUR

While in the training room we will be fairly static and not physically active. If you plan on taking the safari tour(s) – keep in mind that you need to be able to board the safari vehicle and take care of your personal needs.

● CELLULAR SERVICE

Your Smart phone may not roam with your current sim card. Check with your cellular service provider whether you are roaming in South Africa and what the charges are. You can communicate via Skype, Viber, Line, Telegram, Facebook, Twitter, FaceTime, etc. with your family or business associates as high speed WiFi is available at Le Franschoek Hotel at no extra charge.

● ATTIRE

Highly recommended: comfortable clothing.

According to accuweather.com and our own experience November has usually a very pleasant spring-time weather with temperatures ranging between 22 and 24 C with nighttime 12-14 C. Bring a jacket, it can get cool and rainy at certain times.

Make sure you have appropriate active-wear attire. Light layers, light jacket, a mix of short and long-sleeved shirts, comfortable walking shoes, and a camera to capture the thriving landscape. The environment is beautifully relaxed – no need for formal attire.

Bring sun glasses. South Africa's sun can be very bright as the pollution is almost non-existent.

Recommended: a small backpack for water, snacks, etc. during outdoor activity days if you chose to go out.

● ELECTRICAL PLUG/OUTLET AND VOLTAGE INFORMATION FOR SOUTH AFRICA

Primary Socket Type: South African; Multi-voltage appliances (laptops, etc.): Plug adapter – Type M” South African SABS1661 / 15 amp “Large” British BS-546;

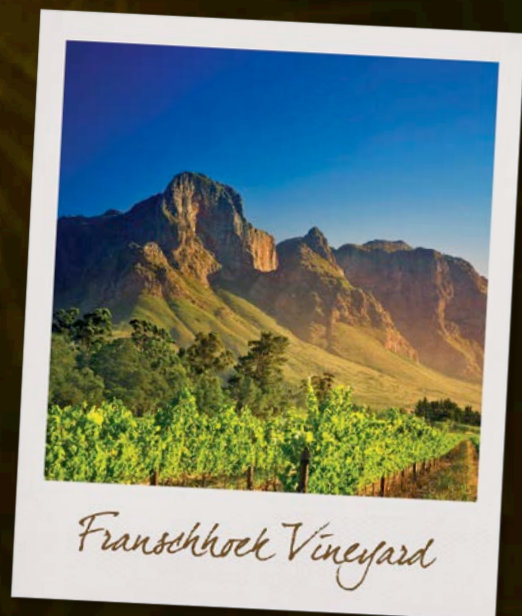

► For 110-120V electronics: Plug adapter + step-down transformer for extra appliances

► Hair dryers, curling irons, electric toothbrushes, etc.: Plug adapter + voltage converter.

Electrical sockets (outlets) in the Republic of South Africa are the “Type M” South African SABS1661 (“Large” 15-amp BS-546) sockets. This is actually an old British standard. The “Type M” South African plug and socket is not to be confused with the “Type D” Indian plug and socket. In pictures, they look very similar, but the South African type is much larger than the Indian type, and they are physically incompatible. If your appliance's plug doesn't match the shape of these sockets, you will need a travel plug adapter in order to plug in. Travel plug adapters simply change the shape of your appliance's plug to match whatever type of socket you need to plug into.

Electrical sockets (outlets) in South Africa usually supply electricity at between 220- and 240-volts AC, 50 Hz. If you're plugging in an appliance that was built for 220-240-volt electrical input, or an appliance that is compatible with multiple voltages, then an adapter is all you need.

Travel plug adapters do not change the voltage, so the electricity coming through the adapter will still be the same 220-240 volts the socket is supplying. North American sockets supply electricity at between 110 and 120 volts, far lower than in most of the rest of the world. Consequently, North American appliances are generally built for 110-120 volts. But that doesn't mean that your specific appliance isn't already compatible with the higher voltage - check carefully.
